

Cell Phone and Social Media Permission

Our current technology opens up the opportunity for easy communication through cell phones, apps and social media. In order to protect students and adults, the youth ministry leadership is requesting permission from parents for the adults who work with youth at First UMC to have the ability to contact students through their cell phones or social media. This is at the parents' discretion. Many students have readily offered their numbers to adults, but in everyone's best interest, we are asking parents to okay this exchange if they feel comfortable.

I give my permission for my student to offer their cell number or social media contact information as needed.

Student Name: _____

Student Cell Phone # - Optional: _____

Parent Name: _____

Parent Signature: _____ Date: _____
